Santosh Chandan

Filmmaker, editor and colourist.
I also run Meta ads, so I know what happens to a video after it's posted.

I run **The Award Losing Films**, my production house, where I've directed a feature and several shorts. I handled YouTube production and post for Acharya Prashant, and I've run Meta ads for five companies.

What I'm after: a role where the video and the marketing sit with the same person. Video marketing lead, performance creative, post-production lead or senior editor. Happy to work remotely or from the office.
